

WOJCIECH JANKOWSKI

JUNIOR PYTHON DEVELOPER

PERSONAL STATEMENT

Beginner Python programmer who wants to gain new skills and experience in the IT industry. I have analytical skills, and thanks to my previous experience I can work well in a team. I gain my knowledge from online courses, e.g. Udemy, from industry literature, to later verify what I've learned by solving tasks on Codewars.

I am motivated by the possibility of personal development and the challenges I face. I will be happy to join the team, which I will be able to support with my skills and from whom I could learn.

IT PROJECT:

Name: MyLife

A project prepared in the Django framework, where on the example of your virtual CV enriched with a personal blog, relational database connections, a contact form, a login panel are presented, and all this is "dressed" in an aesthetic form.

Technologies: Python, Django, SQL, HTML, CSS

Project repository: [Mylife](#)

EDUCATION

Python from scratch

Software Development Academy (291 h) 09/2022-present
